**January 24, 2006
Julie E. Kelly, NARP Marketing**

North American Race Parts (NARP): <http://www.northamericanraceparts.com> announced today that it has become a corporate sponsor and OFFICIAL SAFETY GEAR sponsor for the National Auto Sports Association (NASA) Midwest Region for the 2006 Season: www.nasamidwest.com. NARP will provide the “Hard Charger Award” to various drivers in the GTS, American Iron, Honda Challenge and Spec Miata series throughout the year. In support of NASA’s various racing series, NARP will contribute gift certificates for racer awards and offer NASA Midwest drivers unique discounts on various products throughout the year.

NARP will also provide technical support in the areas of hard parts and safety gear functionality throughout the NASA season. NARP General Manager, Chris Paul shares “Besides hard parts, our greatest product offering to a racer is in the area of safety. Safety is our strong suit. Whether it’s the HANS’s Device, helmets, firesuits, gloves, shoes, nomex underwear, etc., there are an array of professional drivers that depend on North American Race Parts. It’s not uncommon to see an IRL, Champ Car, NASCAR or Formula One driver stop by and purchase something from us. Likewise, it’s not uncommon to see the likes of a dirt track, NASA, or SCCA driver visit our shop to consult our experts and purchase racing parts and gear. We like to think they do this because of our excellent reputation”. NARP is a proud sponsor of NASA and will be offering safety clinics during the NASA Midwest season at the GO FASTER series of track seminars.

To kick off its sponsorship and in support of the Midwest Region’s continued growth and innovativeness, North American Race Parts is offering Midwest Region members a free pair of Alpinestars Tech 1K Gloves or Simpson Sportsman Grip Gloves with the purchase of any fire suit and shoe combination of the same brand until the end of February 2006.

North American Race Parts (NARP) is a wholesale and retail distributor of racing and racing related products. Since 1997, NARP has played a highly visible role in the racing industry as the supplier of choice, from the novice racer to professional race teams and constructors from all over the world. Teams from every form of motorsports rely on NARP to provide top quality products vital to their quest for the checkered flag.
